INTERNATIONAL MOTHER LANGUAGE DAY

Co-funded by the
Erasmus+ Programme
of the European Union

WHY?

In 1999 Bangladesh suggested celebrating An International Mother Language Day....

UNESCO accepted and the celebration has been going on since 2000.

UNESCO strongly believes in the importance of cultural and linguistic diversity, so it is also important to preserve the existence of these different languages, cultures and traditions with the aim of promoting and increasing respect among peoples.

WHY?

Nowadays many languages are disappearing, due to the fact that many speakers do not have access to education. So, even when they can speak and understand some words and expressions of their native language, they cannot read or write using that language. However we strongly believe that the native language of each individual is something to fight for and to maintain.

WHY?

The theme of the 2021 International Mother Language Day is

“Fostering multilingualism for inclusion in education and society”
